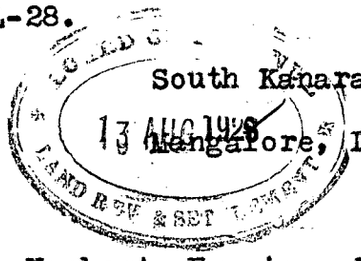
Revenue records and registrs S. Kanara Dt. Subdivisions. Checkmeasurement and Sorting by Shipg. Dist Procedure. Orders passed

* Not to be filled in in the case of permanent records.

Ref.C.No.6204-L-28.



South Kanara Collector's Office,

Mangalore, Dated 9th August, 1928.

From

C. G. Herbert, Esquire, I.C.S.,

Collector of South Kanara.

To

The Secretary to the Board,

Land Revenue & Settlement,

Madras.

Sir,

Accounts - Taluk Manual - 8 A register - Amendment - check-measurement of sub-divisions - Procedure.

B.P.Mis.No. 2018, dated 22-6-1928. (K)

The practice obtaining in this District in the ~~Taluk~~ checkmeasurement of new sub-divisions or fields and scrutiny of the sub-division records by the Inspecting Tahsildar, is different from that laid down in B.S.O.No.34-A paras 11 (a) & (b) in the following particulars.

Procedure according to B.S.O.No.34 A.	District practice.
(1) Check-measurement of sub-divisions is to be done by the Revenue Inspectors after the authority competent to pass orders, sanctions the change in registration.	(1) Check-measurement is done by the Revenue Inspectors before orders are passed by competent authority.
(2) After check-measurement the Revenue Inspector has to incorporate the changes in the village records. In other words scrutiny of the sub-division records by the Inspecting Tahsildar is not done before the changes are incorporated in the village records. He has to do it only before the changes are incorporated in the Taluk records.	(2) The Inspecting Tahsildar's scrutiny must precede the incorporation of the changes both in the village and the Taluk records. This practice has been permitted by the Board to be continued until further order in B.P.Mis.No. 3425 dated 16-11-27. (H)

The Board's Proceedings under reference is in accordance with B.S.O.34-A paras 11 (a) & (b) as regards the procedure in sub-division work.

2. The practice of check-measuring the sub-divisions by the Revenue Inspectors before orders are passed has been

in vogue in this District for a very long time. The authority for it is not traceable but it is well suited to the needs of this District. A very large number of darkhast cases are reported every year. In many cases seigniorage on the tree-growth has to be collected. Without previously check-measuring the sub-divisions the Revenue Inspectors may not be able to value the tree-growth correctly. There is also the question of kumki in this District. The Shanbhogues may not fix the kumaki limits correctly and apportion common kumaki land properly among the common kumakidars. Even here the valuation of the tree-growth on the non-kumaki portions if any by the Revenue Inspectors on the basis of the Shanbhogue's measurements may not be accurate. The Tahsildars or other Officers may have to pass orders on sketches containing wrong measurements, wrong areas and wrong assessments put down by the Shanbhogues. This will result in the records having to be returned and much time wasted. Again if the sub-divisions are to be check-measured after orders are passed, the Revenue Inspectors will have to go to the localities twice, viz., once for submitting reports on the cases and again for check-measurement after orders are passed. For these reasons the existing practice seems to be well suited to this District. In these circumstances I solicit orders whether the District practice should be modified so as to conform to the provisions in B.S.O.No. 34 A, and whether B.P.Mis.No.3425 dated 16-11-27 permitting the scrutiny of the sub-division records by the Inspecting Tahsildar before the incorporation of the changes in the village records, is cancelled by the present B.P.Mis.No.2018 dated 22-6-1928. (H) (K)

Your obedient servant,

C. G. Thomas

Collector.

RESOLUTION. Mis No. 2843 dated 25-8-1928

Note.

Pl. see the DLR's remarks at A on page 14 of BP mis 25647 7-8-28 (5) about the checkmeasurement of Subdivisions by R. I. The procedure regarding the Sending of Subdivision files by the I. T. before changes are entered in Village accounts may also be continued in the S. Kanara Dt. as Conditions there are Somewhat peculiar and new numbers fields are being continuously Carved out of big waste blocks there.

CRA

In the circumstance stated by the Coll^r, the Board agrees with him that the existing practice obtaining in his distt. in regard to the Checkmeasurement of Subdivisions and new pc and Sending of Subdivision by the Insp.g. Dist^r may be continued.
